SUMMARY

I spent nine years in the Army and now work on ServiceNow platforms at Thirdera-Cognizant in Minneapolis: upgrades, security, and Software Asset Management. This year I started learning Ruby through The Odin Project. In July I volunteered at RubyConf 2026, gave a lightning talk there, and got my first Ruby-related pull request merged. In September I am volunteering at Commit Your Code in Plano.

SKILLS

Coding JavaScript, Python, Ruby, Bash, HTML, CSS, Git, GitHub, XML

ServiceNow SAM, CSM, HRSD, ITSM, CMDB, App Engine, Service Catalog, UI Builder, Service Portal

EXPERIENCE

ServiceNow Developer

Feb 2024 — Present

Thirdera-Cognizant, Minneapolis

- Launched a Software Asset Management program, projecting over \$10,000 in annual savings and cutting 500+ hours of manual work, by putting SAM Pro on Microsoft SCCM, Intune, Microsoft 365, and Adobe.
 - Cleaned up the CMDB for that SAM work and cut stale configuration items by 50%.
 - Led the platform upgrades from Washington DC to Xanadu, then Xanadu to Zurich, with zero critical incidents.
 - Cut security findings in half (150 to 75) and got the hardening score to 85% through Security Center.
 - Ran technical demos for executives and managed a Mainframe integration on the platform.
 - Handled day-to-day platform work with the platform owner: incidents, requests, and a triaged backlog.
 - Wrote the runbooks I wished I had: air-gapped MID server upgrades, Azure certificate and secret renewals, and platform cloning.
-

Team Lead and Program Manager

Oct 2015 — Feb 2024

U.S. Army, Various locations

- Led teams of up to 5 people on mission-critical work, and wrote technical documentation that made the work easier to repeat.

TALKS AND VOLUNTEERING

Lightning talk

Jul 2026

RubyConf 2026, Las Vegas

Volunteering at RubyConf Before Becoming a Ruby Developer. First talk, and I closed out the night.

Volunteer

Jul 2026

RubyConf 2026, Las Vegas

Helped throughout the conference and at the hack space. First Ruby-related pull request merged on RubyEvents.

Volunteer

Sep 2026

Commit Your Code, Plano, TX

Community conference in Plano, September 2–4. Another chance to help out after RubyConf.

CERTIFICATIONS

- Architecture Excellence (ArchX)
- Certified Implementation Specialist — Software Asset Management (CIS-SAM)
- Certified Implementation Specialist — IT Service Management (CIS-ITSM)
- Certified Application Developer (CAD)
- Certified System Administrator (CSA)
- ITIL 4 Foundation Certification
- 15x Micro-Certifications

EDUCATION

Southern New Hampshire University

Computer Science

Jun 2023 — Dec 2023
